About me

My name is Soumen Bhandari, and I am pursuing a Bachelor of Technology (B.Tech) in Artificial Intelligence and Robotics. Since the ninth grade, I have been passionate about becoming a robotic engineer, driven by the potential of robotics to transform industries and enhance daily life. I am dedicated to exploring innovative solutions and applying my knowledge to practical projects that push the boundaries of technology, aiming to collaborate with professionals to shape the future of robotics.

Hobbys

- Playing Flute
- Skating .

Objective

Motivated higher secondary student with programming skills in C++ and proficiency in seeking an internship to gain practical experience in artificial intelligence and robotics. Committed to developing innovative solutions and driven by a strong determination to succeed. Aspiring to become a robotic scientist to invent new technologies that can positively impact the world.
